

## COVID – 19 MEASURES

- Classes will be practicing physical distancing in class, chalk grid lines may be used to ensure dancers remain in their own space. We encourage students who are able to wear a mask in class, as we are in a community space. Students will be provided with “own” area in class for water bottles etc.
- Classes will be capped at 9 as opposed to 12.
- We kindly ask that 1 parent drop off your child, come up the front stairs and exit the back stairs. If you must wait, please practice physical distancing in waiting area. We will only be setting a few chairs out.
- Hand sanitizer will be provided in class as well as in the waiting area.
- We have scheduled 15 minutes between classes to ease congestion in the building, and to allow for cleaning of equipment if necessary.
- We will sanitize equipment and high touch areas after each use. (Note we are not responsible for the washroom, we kindly ask parents to escort children).
- If you or child is unwell, please stay home. Instructors reserve the right to deny entry of anyone with cold or flu like symptoms. Please see policy regarding missed classes.
